

PROFILE

Transforming manufacturing companies who believe they have labor issues (workforce shortage, high cost of wages & benefits, training, human error, etc.), by shifting the discussion to how their real issue is inefficiencies with production and/or operations.

Showing businesses how to cut costs and save time on the logistics associated with hiring; while helping them transition to innovative solutions to optimize their process and become more efficient in achieving their desired ROI targets.

SKILLS

AUTUMN MATIAN

Manufacturing Revolutionary

EDUCATION

This is a partial listing of the local schools from which Autumn Matian has graduated. Autumn is an active community member - well versed in and connected to many of the area's top performing businesses.

University Of Wisconsin – Madison

Mechanical Engineering

Marquette University

School Of Business

University Of Wisconsin - Platteville

Electrical Engineering

Milwaukee Area Technical College

Operations

Waukesha County Technical College

Engineering – Controls and Systems

WORK EXPERIENCE

Automation Solutions LLC - Aggregated Engineering Experience

2011–Present

With literally hundreds of years of combined engineering experience, Autumn Matian has designed and integrated manufacturing solutions for every category of production.

Autumn keeps operations running for manufacturers by supporting field service needs both on-site and remote.

Autumn's system control offerings are considered best in class and are capable of handling any size job at our local production facility.

EXPERTISE

Autumn Matian understands the negative impact of manufacturing downtime and provides alternative solutions to rapidly assist with all electrical, control, hardware and software requirements.

Conveyance | Batching | Machine Tending | Motion Control
Packaging | Robotics | Press Operation | CNC | Safety
